Support to PD-53

Introduction

PD-53

This report contains Intelligence Community initiatives that support PD-53 objectives. The primary contributors to PD-53 are the Central Intelligence Agency and the National Security Agency. This report is divided into major divisions describing the initiatives of each agency. DIA and NRO initiatives are also addressed as divisions. The information supplied is focused toward providing for a survivable telecommunication system capable of supporting the functions of worldwide intelligence collection and diplomatic affairs during and after national emergencies.

Although the programs contained therein support PD-53 objectives, many were started without PD-53 impetus. These programs were formulated to fulfill in-depth Agency or Intelligence Community requirements that coincidentally parallel PD-53 objectives.
